EDUCATION

Indian Institute of Information Technology, Design and Manufacturing Jabalpur, Madhya Pradesh

Bachelor of Technology in Mechanical Engineering

Oct. 2021 - May 2025

current CGPA: 8.5

S D VIDYAPITH
Intermediate CBSE: 93%

Samastipur
July 2020

Kendriya Vidyalaya Samastipur

Matriculation CBSE: 90% July 2018

TECHNICAL SKILLS

Languages: Python, C++,JavaScript, HTML,CSS Frameworks: React,BootStrap,TailwindCSS Developer Tools: Git, Linux, Visual Studio

CS Fundamentals: Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Database

Management Systems, Computer Networks

PROJECTS

$\mathbf{CRR}\ \mathbf{News}\ |\ \mathit{React,Javascript,Bootstrap,\ Html,Css}$

- Designed and developed a responsive news website using React.js and Bootstrap, providing users with a seamless and visually appealing news browsing experience.
- Integrated the NewsAPI to source real-time news articles and updates, ensuring that the website's content remained current and relevant.
- Implemented a user-friendly and intuitive interface with dynamic content filtering and sorting options, enhancing user engagement and navigation.

To-Do $\mid React, Javascript, Tailwind CSS$

- Designed and developed a user-friendly To-Do website using React, JavaScript, and Tailwind CSS, offering a responsive and visually appealing task management solution.
- It facilitate seamless creation, editing, deletion, and retrieval of user-generated Goals.
- It has To do meter which tell how much percentage of task we have completed.

Portfolio | ReactJs, TailwindCSS

- Developed and designed a professional portfolio website to showcase my work, skills, and achievements.
- Implemented responsive design principles, ensuring optimal performance and accessibility on various devices and screen sizes.
- Integrated social media and contact information for easy networking and communication.

HarshCanteenSite | Html, Css

- Made a user-friendly canteen website using HTML and CSS, providing an engaging online platform for customers to view the menu, place orders, and access information.
- Designed a user-friendly interface with 3 primary fragments Menu, order, and Contact us
- Created a responsive and visually appealing layout, ensuring seamless navigation and an optimal user experience across various devices and screen sizes.

Calculator | Html, Css, Javascript

- Designed and implemented a fully functional calculator website using JavaScript, HTML, and CSS, providing users with a versatile and responsive tool for performing arithmetic calculations.
- Developed the calculator's core logic in JavaScript, enabling precise and error-free calculations for various mathematical operations.

ACHIEVEMENTS

- Achieved the rank of **3124** out of 19437 candidates participated in Leetcode Biweekly Contest 104
- Achieved the rank of 1758 out of 14854 candidates participated in Codechef Starters 53
- Solved around **500** question on diverse problem solving platform
